Dear SOA, ZOA, SOCH

Respect, Honour and Greetings to SOA, ZOA and SOCH. First of all allow me to appreciate ZOA, SOA and SOCH for everything they have done in my life. It was not an easy journey of life but it was made possible by SOCH, ZOA and SOA. Beginning from primary school to Tertiary level, you have sponsored me of relatives could not manage but ZOA, SOA and SOCH did it for this am still appreciating.

Sponsoring me at the university with a such huge amount of fees is soo difficult but you made much efforts to make sure that am in school so thank you very much for all the efforts being made.

Last year was a bit challenging because I entered into another dimension of life because my mind was being sifted from being taught to be lectured of which I wasn't used to. In my first semester I did my Natural sciences, Socio-Psychology and ICT. At the end of semester 1 I sat for the end of semester 1 examinations of which I managed to proceed to the second semester.

Semester 2 was also somehow challenging because the school introduced self catering where we were cooking for ourselves, making budget which was so stressing. After writing end of year exams, I went for internship where I did first rural experience. During my attachments, I did water chlorination, Indoor Residue Spraying (IRS), village inspection, community diagnosis, building science, Rodent control and also snail identification in schistosomiasis (Bilharzia). I was also tasked to catch three live mosquitoes which were Anopheles, Aedes and Culex mosquitoes although it was hard but it was also interesting and enjoyable.

Finally, being an Environmentalist is so interesting but has being made possible by SOA, ZOA and SOCH. So the end of year results will be soon out and will be forwarded to SOCH.

Yours Faithfully

BLESSING MUSEMBA
