Dear SOA, ZOA, SOCH

29/01/2020

I would like to pass my greeting to SOA, ZOA, SOCH. It's my pleasure and honour to thank SOA, ZOA, SOCH for the continue support that you have been rendering toward me.

It would not have been easy for me to pull through my school work if it was not for your help. I really appreciate your ~~kind~~ feeds. I really appreciate for seen through since my childhood up to date, when am doing my tertiary level. Your help is to be appreciated.

Through the support that I receive from you has enabled me to reach and beat the college of high standard where I am today, which was not going to be possible on my own.

As I completing my course of study am going to be a well trained health practitioner who will be serving people's live. Not only on that I will also advance in my career as it is that it gives a wide range of advancement.

However, Am faced with some challenges has I undertake my course which RD (Registered Nursing). The course involves much on the use of Internet. The most thing is done through the research and I may not be all that equipt with the Internet. Not only that but also the much work is required to be printed that is the assignments and the notes. And this is the most challenge as it is that it is part of the final General Nursing Council final examination.
